

XIII. OBJECTIVE 3D: BILLING AUTHORIZATION

Costs incurred to develop, construct, support or maintain fish and wildlife enhancement or public recreation ("FWER Costs"), including FWER Costs incurred to secure or comply with a permit, license or other approval issued by any federal, state or local agency, shall not be included in the prices, rates, and charges imposed for water and power and shall not be reimbursable by the contractors pursuant to the Contract. FWER costs, include, but are not limited to, costs incurred for: (a) recreational pursuits generally associated with the out-of-doors, such as camping, picnicking, fishing, hunting, water contact sports, boating, and sightseeing; (b) associated facilities, such as campgrounds, picnic areas, water and sanitary facilities, parking areas, viewpoints, boat launching ramps; and (c) any other purposes necessary to make project land and water areas available for use by the public. For any joint use or multi-purpose facilities, FWER Costs shall be allocated in accordance with the Separable Costs, Remaining Benefits methodology.
